## INTRODUCTION

The purpose of the fact book is to provide official information about Salt Lake Community College. Where possible, several years of historical data have been presented to provide perspective and to show trends.

It should be noted that given the complexities and size of SLCC and the multiple special data bases that are being used, when interpreting data appearing in this book care should be taken to ensure the data base is correct for the purpose for which the data is used. The fact book represents the official numbers of Salt Lake Community College.

The organization of the data is as follows:

<b>Tab A.</b>	<b>Student Enrollment Information</b>
<b>Tab B.</b>	<b>Student Demographic Information</b>
<b>Tab C.</b>	<b>Faculty/Staff Information</b>
<b>Tab D.</b>	<b>Degrees and Awards</b>
<b>Tab E.</b>	<b>Financial Information</b>
<b>Tab F.</b>	<b>Facilities Information</b>
<b>Tab G.</b>	<b>Student Input</b>
<b>Tab H.</b>	<b>SLCC Skills Center</b>

The fact book was prepared by Debbie Summers from Planning and Research, a department within Business Services of Salt Lake Community College.

We, the faculty, staff and students of Salt Lake Community College applaud and reaffirm our comprehensive community college mission. Our business is teaching and learning. We are committed to building our community through vocational/applied technology education, developmental education, transfer education, community education, strong student support, lifelong learning, and business and economic development.

## College Values

**STUDENTS** are our highest priority.  
In harmony with this priority we declare our values:

**COMMUNITY:** We value community involvement and economic development

**CREATIVITY:** We value creativity, innovation and responsible risk taking.

**DIVERSITY:** We value personal, cultural and ethnic diversity.

**ENVIRONMENT:** We value an accessible, safe, clean and aesthetically pleasing environment.

**EXCELLENCE:** We value quality education and professional excellence.

**EXPRESSION:** We value responsible, personal, academic and expressive freedom without harassment, intimidation, or other destructive behaviors.

**INTEGRITY:** We Value integrity, responsibility, honesty and ethical conduct.

**PEOPLE:** We value each student, faculty and staff member and believe that all should be treated with care, equity, respect and empathy. We value opportunity for growth, recognition and reward.

———— Q.S.P. ————

## SALT LAKE COMMUNITY COLLEGE MISSION STATEMENT

### OUR MISSION IS EDUCATION

Salt Lake Community College is a multi-campus, comprehensive institution serving a diverse population through lifelong education. Our mission focuses on student needs in an open-door setting. We are committed to:

**Vocational and Technical Education** resulting in marketable job skills in a changing world,

**General Education** and pre-professional programs for transfer to other colleges and universities,

**Adult and Continuing Education** in cooperation with business and industry to enrich the opportunities of citizens,

**Developmental Education** designed to support students making a special transition to college life,

**Community Services Education** providing services and activities that promote community involvement,

and

to **student services** which support education and promote responsible choices through collegewide programs and activities.

## SALT LAKE COMMUNITY COLLEGE GOALS INTO THE FUTURE

As the faculty and staff of Salt Lake Community College, our mission is education, with students as our highest priority. To accomplish this mission, we declare the following goals to increase institutional effectiveness as:

### Education and Training

We develop opportunities, make decisions and act to enhance the intellectual, physical and social pursuits which address the students' present circumstances. These efforts prepare individuals to live, work and grow in today's diverse, complex and technologically driven global society.

### Fiscal Responsibility

We use College resources, including facilities, equipment, budgets and personnel, in a responsible and cost effective manner. This includes sharing these resources and working cooperatively across organizational lines, while considering the needs of students.

### Quality Service

We provide excellent service to everyone, both internally and externally, through efforts to encourage and increase diversity and cultural awareness. Also, we recruit and retain students, faculty and staff with fair, honest and nurturing treatment. In addition, we strive for cooperation, trust and unity and we embrace open, honest communication.

# VISION FROM WITHIN: PATHWAYS TO 2010 AT SALT LAKE COMMUNITY COLLEGE

## *Preface*

*During Strategic Planning Cycle VIII approximately 125 faculty and staff members worked over a period of months to identify a vision of what Salt Lake Community College can become as we shape our future in teaching and learning, student development, technology, and economic development. This vision statement merely launches the College visioning process. The next step is to ask you, our College community, for your support and recommendations. It is the intent of the Strategic Planning Steering Team and the President that the vision statement be used as a major benchmark for the College. With the mission and values, the vision statement will guide the direction of all plans, programs, goals and objectives for departments of the College. Therefore it is important we understand, embrace and use the vision. To continue to be of value, these statements must evolve as our knowledge and understanding grows. We welcome your input.*

## Teaching and Learning

Fundamentally, by 2010 teaching and learning at SLCC will reflect:

- **a pedagogy that encourages faculty, staff and students to empower themselves** to act for social change and to advance democracy and equality as they pursue their educational goals;
- **good practice in undergraduate education**—practice which fosters a learning community in which students, faculty and staff work together;
- **student-centered learning** which requires **adaptive teaching**—teaching that responds to different ways of knowing and that recognizes students' needs, including the need to make decisions about their own education;
- **a coordinated, adaptive curriculum** that (1) emphasizes skill mastery *and* learning for understanding, (2) includes multiple instructional formats and modalities and (3) is responsive to the changing nature of knowledge and technologies and to the needs of the community;
- **technology used to enhance learning and adequate, appropriate equipment, facilities and resources;** and
- **continuous assessment and evidence** used to improve teaching and learning, with **evaluation as a learning tool, and continuing professional development for all full- and part-time faculty** in both their disciplines and in pedagogy.

## Student Development

The faculty, administrators and staff at Salt Lake Community College are dedicated to providing, in a caring and ethical manner, opportunity, challenge, support and personal growth for our students. This commitment to student development directs the way we create programs, develop curriculum, hire college personnel and make decisions.

Salt Lake Community College will encourage students to:

- **assume responsibility**
- **think critically**
- **learn effectively**
- **become personally effective in the circumstances of their lives and work**
- **develop a social conscience**

Every institutional process and point of contact between students and Salt Lake Community College will be evaluated and designed in light of its potential contribution toward the development of these critical skills and traits.

## Technology

Technology is knowledge that provides a set of tools and services that both directly and indirectly benefit students and enable them to contribute positively to their future. Salt Lake Community College embraces technologies that:

- **increase the quality, efficiency and accessibility of instructional and support services**
- **respond to the needs of business, industry and the community**
- **increase motivation and develop skills in problem solving, independent thinking and collaborative work.**

These technologies include: (1) instructional technology—used to enhance teaching and learning, (2) applied technology—taught within the curriculum, and (3) support technology—used as administrative tools and applications.

This vision provides a framework for using technologies to enhance and support student learning and achievement. Realizing this vision requires continual funding for infrastructure, acquisition, training, support and associated needs.

## Economic Development

Our vision is to be the educational leader for the economic development needs of our community.

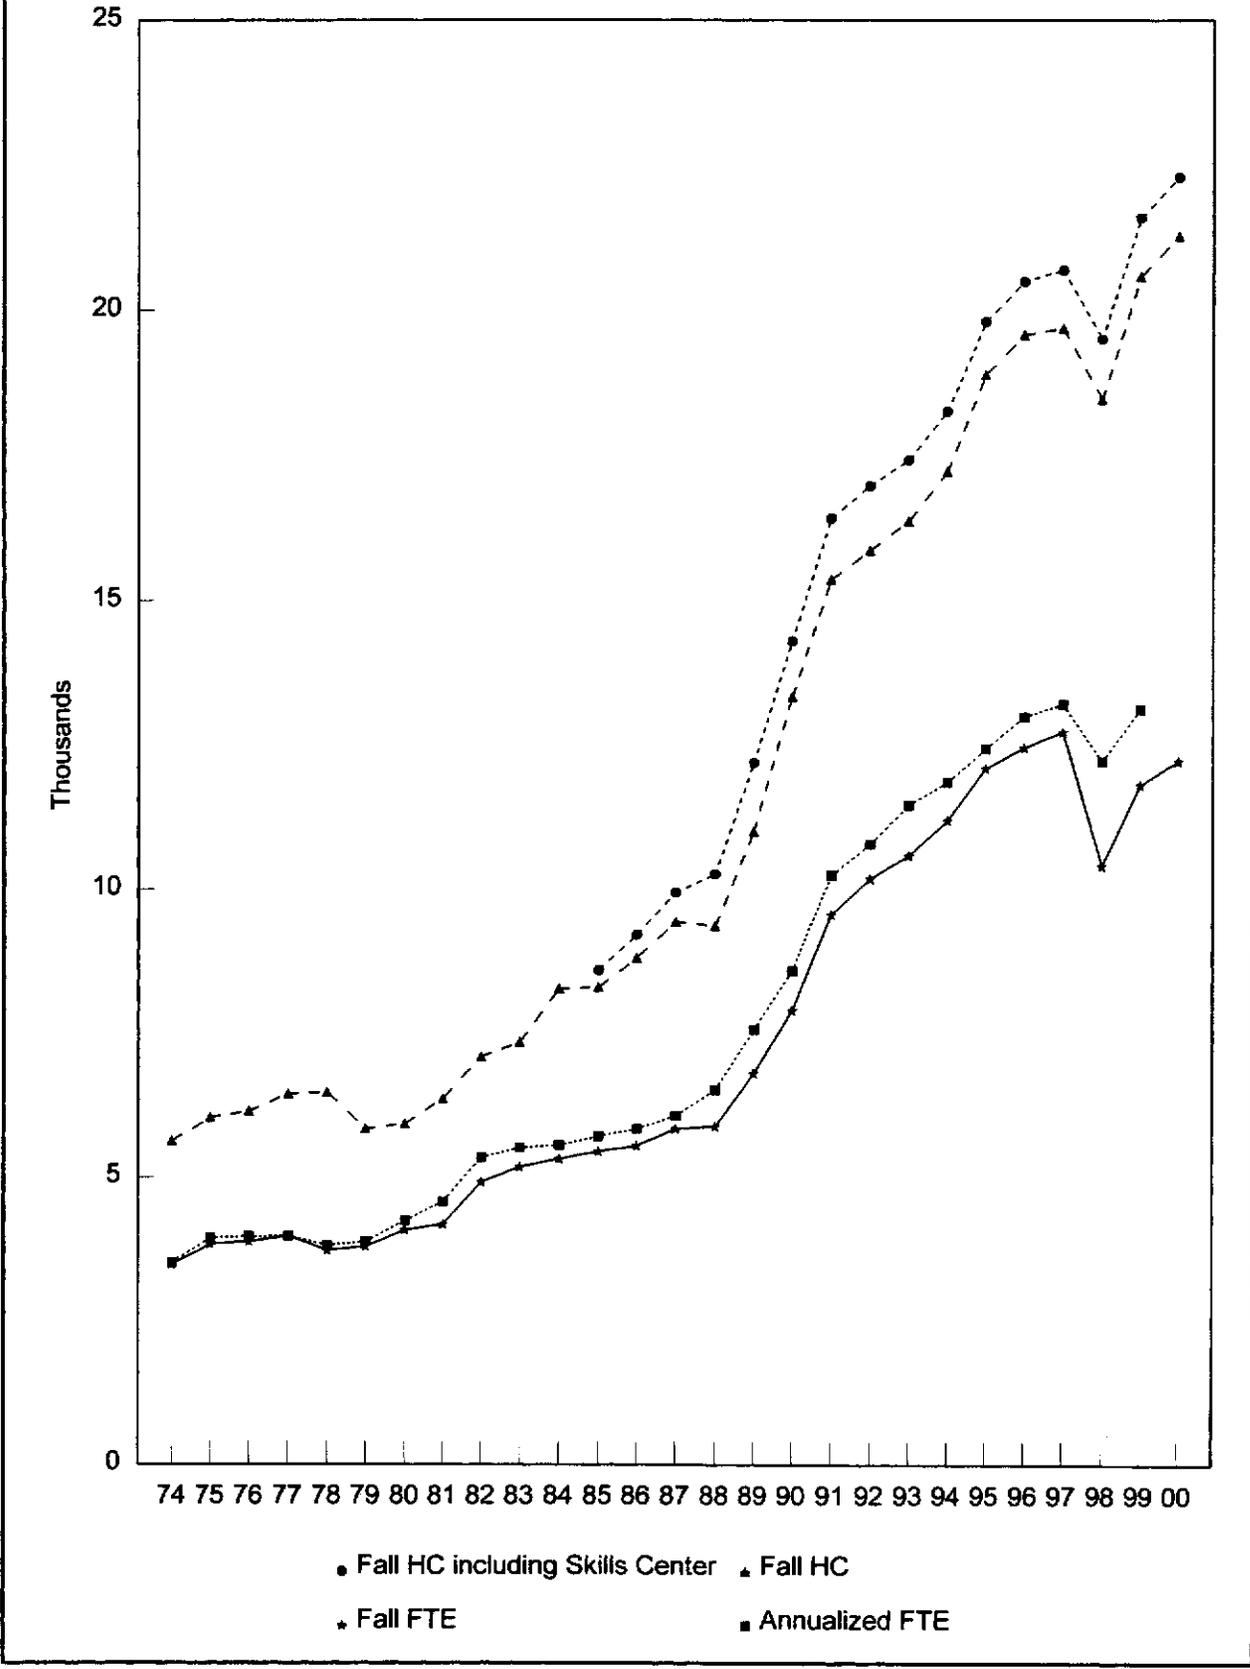

We will be:

- **the primary educational resource and training partner** for students, business, industry and government.
- **innovative and flexible** in the delivery of our services.
- **known for enhancing quality of life** through education.

## **G. STUDENT INPUT**

## EXPLANATION OF THE STUDENT FOLLOW-UP SYSTEMS

On a yearly basis Salt Lake Community College (SLCC) conducts student surveys eliciting certain kinds of information about the College. The NEW STUDENT SURVEY is sent to students enrolled Fall Semester who have not previously attended SLCC. The NON-RETURNING STUDENT SURVEY is sent to those students who attended SLCC during Fall Semester but who were not enrolled Spring Semester. The GRADUATING STUDENT SURVEY is collected from students who are applying for graduation during the school year.

While the response rate does vary from year to year, we typically receive between 20% to 30% responses from the NEW STUDENT AND NON-RETURNING STUDENT SURVEYS, and 40% to 60% from the GRADUATING STUDENT SURVEY. Strictly speaking the results cannot be generalized; however, the responses are considered workable and are used in various ways by SLCC faculty, staff and administration.

Data from each survey instrument is entered into a software package called "**STATISTICAL PACKAGE FOR THE SOCIAL SCIENCES**" and the results are generated directly from those data. The results that are included present each question that was asked of each of the respondents followed by the resulting percentages.

If you have any questions concerning any facet of the Student Follow-Up system, please contact Maurene Williams, Strategic Planning Coordinator, in the Office of Planning and Research at SLCC at (801) 957-4198.

**H. SLCC  
SKILLS CENTER**

# INTRODUCTION

## SLCC SKILLS CENTER

### **Mission Statement**

The Salt Lake Community College Skills Center represents the State's commitment to provide quality vocational/technical training for people who are educationally, socially, and economically disadvantaged and people with disabilities. The Skills Center offers open-entry/open-exit, competency-based, non-credit courses and intensive student support services. Programs and services are individualized, flexible, and responsive to business and industry requirements and the education and training needs of an ever-changing, diverse community.

### **History**

The Skills Center has a long tradition of providing short-term basic skills training, vocational training and job placement services for the disadvantaged. It was initially established in December of 1970, when the Utah Manpower Council's Human Resource Center and the Work Incentive (WIN) High School were combined to form the Salt Lake Skills Center. At that time, responsibility for the Skills Center was placed with the Utah State Board for Vocational Education. Both Manpower and WIN were programs specifically designed to provide training and job placement services to the unemployed and underemployed.

On July 1, 1972, the Salt Lake Skills Center was placed under the direction of Utah Technical College at Salt Lake, which became Salt Lake Community College in April 1987. In 1973, the Manpower program was replaced by the Comprehensive Employment and Training Act (CETA), which became a major source of funding for Skills Center students.

In its 1992 general session, the Utah State Legislature enacted H.B. No. 235 which officially specifically defined the mission of the Salt Lake Skills Center as follows:

The center shall provide short-term, intensive, noncredit, vocational-technical training specifically designed for economically disadvantaged students and educationally disadvantaged students.

Training at the center shall focus on immediate job entry skills.

This legislation also changed the general control and supervision of the Skills Center from the Utah State Board of Education to the Utah State Board of Regents, and specifies that "Salt Lake Community College shall administer the center under the board's supervision."

This unique situation provides the opportunity for the Skills Center to deliver intensive, individualized student support services and open-entry, open-exit, competency based instruction designed to meet the needs of disadvantaged students, a population whose needs are often not met in a traditional college environment. The mission of the Skills Center is integrated with, and directly supports the open door, student-focused mission of SLCC, a comprehensive community college.

Throughout changes in funding and governance, the mission of the Skills Center has remained to provide short-term, open-entry/open-exit basic skills and vocational training and job placement services for the educationally, economically, and socially disadvantaged, and to persons with disabilities. As stated by Jay Nelson in The First Thirty Years (p. 175),

The Utah Technical College Skills Center division has made significant contributions to the students who have attended. The community has accepted, applauded, and supported the accomplishments of the Center, and the college is highly respected for having done what it could to serve the disadvantaged community.

This statement remains true today as it relates to the Salt Lake Community College Skills Center.

### **Goals**

The goal of the Skills Center is to provide students with entry-level vocational skills leading to job placement. To that end, programs are designed to provide open-entry/open-exit, competency-based, hands-on, vocational instruction which encourages students to work at their own pace. The aim is to achieve two goals: the first is to help individuals find an area of education and/or training that will fit their needs, and the second is to provide business and industry with a source of workers who will find satisfaction in their work and stay on the job.

To this end, the Skills Center cooperates with business and industry in the Wasatch Front South Area and Tooele to help them find workers that match job skills and interests with available jobs.

### **Organizational Structure**

The Skills Center is a division of Salt Lake Community College, organized under the direction of the Executive Dean. The Skills Center Director reports to the Executive Dean, with Skills Center Student Support Services, Business Operations, Career Resources, and Skills Center Instruction reporting to the Skills Center Director.

## **Special Support Services**

**Assessment** - Students entering Skills Center programs receive individualized assessment of basic skills and aptitudes as they relate to the student's proposed training program. This assessment process helps to ensure that they have the interest and aptitude recommended for the successful completion of the program in which they choose to enroll. Career exploration and more in-depth assessment are provided for students who are undecided in regard to a training program.

**Admissions Advisors** - Admissions advisors review vocational evaluation information with each student after assessment is completed. The purpose of this review is to assist students in understanding evaluation results which include data on academic skills, occupational interests, work values, and aptitude strengths and weaknesses. The session with the admissions advisor helps students establish their career objectives and enables the advisor to assess whether or not the student's interest and aptitude are sufficient to promote success and retention in the program. This service provides the student with the necessary information to make meaningful training and employment decisions.

**Enrollment Workshops** - Enrollment workshops, a unique feature of the Skills Center, are designed to assist students in identifying potential barriers to training. These workshops are held weekly and address such issues as study habits, time management, test taking, prioritization of tasks, and self confidence. Admissions advisors schedule students for these workshops or new student orientation.

**New Student Orientation** - New student orientation is held every Friday and class work begins on the following Monday. All students are required to attend the orientation class on the Friday prior to the beginning of their training program. On the first day of school, instructional advisors meet with students and outline basic attendance policies and specific requirements for each class.

**Instructional Advisors** - Instructional advisors meet with students on a regular basis to ensure that students are progressing through the training program successfully. As the student advocate, the instructional advisor plays a major role in keeping students in training programs by helping them overcome obstacles that may interfere with their successful completion of the program and eventually with success on the job. Instructional advisors also help students with any special assistance that they may need to be successful during their training. To that end, instructional advisors may refer students to other services offered by the Skills Center or work directly with the sponsoring agency to determine how to best meet the needs of the student.

**Financial Aid Advisor** - The financial aid advisor advises and assists students applying for Title IV and state funding. The advisor determines eligibility, aid options, requirements, packages financial aid and monitors satisfactory progress for students awarded financial aid in the clock hour programs.

**Veterans Advisor** - The veterans advisor coordinates with the veterans administration and veterans in certifying enrollment of veterans in eligible clock hour programs. The advisor counsels veterans on program eligibility and veterans education benefits and monitors satisfactory progress on certified veterans.

**Disability Support Services** - Students with disabilities may receive assistance through Disability Support Services (DSS). Services, coordinated through the DSS advisor, include counseling, tutoring, note-taking, adaptive equipment, and reader and interpreter assistance as well as community referrals. Study skills workshops and support in addressing special needs with teachers and employers and other related issues are provided. Accommodations in training programs are coordinated through DSS. The DSS advisor is the campus liaison with the Division of Rehabilitation Services.

**Career Resources** - The Skills Center is committed to helping students actively participate in obtaining employment on completion of their training programs. Professional staff members of the Skills Center Career Resources Office offer employment workshops (job-seeking and retention skills workshop that provide skills assessment). Topics include how to handle the job interview, filling out applications, preparing resumes, and tapping into the hidden job market. The staff provides personalized employment services and current labor market information. The Career Resources Office also serves students seeking part-time, temporary, or full-time employment while in school.

# **SALT LAKE COMMUNITY COLLEGE SKILLS CENTER VISION STATEMENT**

**The Skills Center serves its customers by providing short-term, competency-based vocational training which effectively prepares students to seek, obtain, and retain employment in the current job market.**

## **Our customer, THE STUDENT, knows us for...**

A wide variety of vocational training programs which include the following:

- Faculty who are positive, highly qualified, and sensitive to individual needs
- Support staff who are sensitive and dedicated to student success
- Excellent, up-to-date facilities and equipment

Support services and assistance which support education by providing the following:

- Financial aid and planning
- Day care and transportation solutions
- Accommodations for persons with disabilities

Flexible enrollment and scheduling options

Individual program selection and vocational guidance

Employment assistance

## **Our customer, THE EMPLOYER, knows us for...**

Providing employees who are competent in the areas in which they have been certified

Participating with employers to create customized programs

Providing on-campus and/or on-site training

Using an employer-faculty council (Program Advisory Committee) to guide curriculum development

Advertising and promoting available job openings

## **Our customer, THE AGENCY, knows us for...**

Being fully committed to the success of each student

Providing information and reports in a timely manner

Effectively assessing and advising students to determine vocational goals and removing barriers to achieve them

Ensuring full accessibility and Americans with Disabilities Act (ADA) Compliance

Fostering partnerships between businesses and the Skills Center

Our wide diversity of students, staff and faculty

**Our customer, THE SKILLS CENTER, knows us for...**

Our determination to exceed all our customers' expectations

Our vision to grow and develop in the following areas:

- Exerting extensive efforts to promote awareness of the excellent short-term programs and vocational services offered by the Skills Center to the entire community
- Increasing our available facilities by developing portable programs and expanding on-site training
- Developing alternative funding sources by soliciting support from public and private foundations, corporate sponsors, etc.
- Supporting involvement in cooperative work experience which allows faculty to update their knowledge of current industry standards and procedures

**Our customer, THE LEGISLATURE, knows us for...**

The most cost-effective, outcome-oriented, short-term training option in the state

Our high rates of enrollment, retention, completion, and employment

Our focus on the students to assist them in becoming self-sufficient, taxpaying employees

**Our customer, THE EMPLOYEE, knows us for...**

Meeting the needs of employees in a positive, timely manner

Providing technical and logistical support and training

Offering incentives for continued educational development of all employees

Equitable, ethical treatment in the areas of pay, benefits, and workplace safety

A supportive, friendly environment which recognizes achievement and encourages innovation, information exchange, and cooperation between faculty and staff to serve student needs

Open communication where students, faculty, and staff are free to express opinions and ideas without fear of reprisal

**Our customer, THE COMMUNITY, knows us for...**

Our excellent vocational programs, positive reputation, and global public image

Being aware of and sensitive to diverse community needs

Making communities better by promoting employee and student volunteer service

Fostering the development of community values

Vocational assessment and exploration

**Our customer, OTHER EDUCATIONAL INSTITUTIONS, knows us for...**

Acting as a stepping-stone to prepare students for further education

Being a viable alternative for at-risk youth/students

An open and mutually supportive relationship which enables and encourages students to continue their education after finding employment
