COLLEGE SENATE PROCEEDINGS

Following is a summary of the April 15 Minutes, approved in the May 5 Senate meeting, and published for the awareness of the college community.

1. Officers elected (as noted in "Spotlight", April 20 issue).
2. Resolutions passed: (A) Expression of gratitude to Senate Planning Committee for development of the Constitution and By-Laws; and (B) Expression of gratitude to President Carnahan for his foresight in recommending initiation of a College Senate.
3. Reed Parr appointed to represent the College Senate at the Institutional Council meeting.
4. The Institutional Council is the voice of the college community; the College Senate acts as a policy recommending group to the President of the College.
5. The Senators received the charge to keep constituents well-informed on Senate proceedings.
6. Definite schedule set for Senate meetings: first Thursday of every month at 2:30 p.m. in AD Room 201, continuing 1-1/2 hours in length, with flexibility as warranted.
7. Jay Williams, PR Director, invited Senators' help in solving mailroom distribution problems. Subcommittee to be appointed to study problem thoroughly.
8. Procedures for getting items on the agenda briefly discussed, with more discussion scheduled to follow.
9. Invitation to AS/UTC, CTA, PSA, and UPEA organizations to send representatives as guests of the College Senate to the Senate meetings.

FOUR-DAY WORK WEEK STARTS IN JUNE

For the fifth year in a row the Redwood Road campus will operate on a four-day work week, beginning June 13. Most staff and classified personnel will be working from 7 a.m. to 5 p.m.

Energy conservation remains one of the principal goals in the consideration of a 4-day week. However, many faculty and staff enjoy the prospects of three-day weekends.

Director of facilities Paul Gundersen notes that buildings may be warmer late Thursday afternoon and early Monday morning while air conditioning is not at full capacity. However, if the weather gets no better than at present...who needs air conditioning?

EXTERNAL PROGRAMS PLANS COMPUTER CAMP

External Programs' Bill Laney tells about a summer Computer Camp for youth which is being run between quarters for one week.

Thought to be a new offering in the state of Utah, the camp will run on campus from Monday through Thursday, beginning June 6th. Camp director is Ray Emmett.

Enrollment is open to all students in grades 6 through 12. No prior programming experience is necessary.

While the regular cost is \$98 (including materials and lunches each day), cost to children of Utah Tech employees is only \$49. But registration is limited, so discuss this with External Programs soon if you want to enroll your offspring.

Classes will be from 9:30 a.m. to 3 p.m. daily, with tours and activities scheduled to break up long blocks of time. Camp enrollees will receive approximately 20 hours of "hands-on" instruction.

GRADUATION WRAP-UP

Two outstanding supporters of the college will receive Utah Tech's distinguished service award at graduation ceremonies, June 3.

Jack May, president of May Foundry and Machine, is also president of the Utah Technical College Foundation. In this capacity he, along with other members of the foundation, will work to obtain non-state funds for the institution.

The other recipient will be Lyle Campbell, executive vice president, Wheeler Machinery Company, and former vice-chairman of the college's advisory council (forerunner of the Institutional Council.)

Approximately 1,400 students (including Skills Center) have graduated. The graduation committee expects about one-third of that total to show for the commencement activity.

Dr. Stephen R. Covey, associate professor of organizational behavior at B.Y. U., is slated as commencement speaker. Dr. Covey is widely known for his management seminars, and is also recipient of a number of teaching and speaking awards.

The 7 p.m. ceremony is being held this year at the University of Utah Special Events Center. Parking should not be a major factor.

Profile:

G E O R G E J O H N S O N

An 11-year veteran architectural technology instructor at Utah Tech, George Johnson is the incoming president of the Classroom Teachers' Association. He takes office beginning with summer quarter, leading more than 180 full-time instructors in matters concerning their professional stature.

In many respects George is a winner. When he was yet in college he received the Phi Beta Sigma honorary freshman scholarship; and became also a member of Phi Beta Kappa, and Phi Kappa Phi. He was president of the student chapter on the 'U' campus of the American Institute of Architects. He was a winner, also, of an A.I.A. scholarship.

For a number of years George was the state's singles and doubles champion in handball. He served as president of the Utah Handball Association, too, and was chairman of the National Handball Championships in Salt Lake. He still plays a "mean" game at the Deseret Gym, where he can often be seen both working out and relaxing several times a week.

Born in Chicago, one of 8 children, part of his early education took place at the Pullman Tech, a private high school. It was here that he was first exposed to architecture.

But the family moved to Ogden, and George attended Ogden high school. During this period he held a part-time job as a warehouseman. Upon graduation he got a 40-cents-an-hour job as a delivery boy for an auto parts jobber. One highlight was his first trip out on a motorcycle and sidecar: turning faster than he intended he mowed down an entire section of fence with the sidecar. The experience humbled him.

During World War II George was inducted into the Marine Corps, serving 2 years in the South Pacific theater. He received the Purple Heart for wounds sustained at Okinawa.

As a civilian returning to Utah George enrolled at the University of Utah and, later, at the University of California at Berkeley. A high honors graduate, he earned both a BFA and a bachelor's degree in Architecture. He has been a professional architect since 1964.

In addition to his prowess at handball, he has been an all-state baseball player. Also, he has had heavy involvement with the Utah Tennis Association, having been president for 3 years, as well as a board member; and also chairman of tournaments, including the NCAA championships in Salt Lake.

In the area of civic service George Johnson has been president of the Salt Lake Jaycees, and state director for that organization, too.

Looking to CTA's future, George hopes to emphasize the sense of pride each member of the faculty has in his/her own work. As president he expects to serve the community to the best of his ability, knowing that quality service inevitably brings rewards to those who engage in it.

...Jeanne Garrison, Student Services, has been in the hospital. Our sincere good wishes for a speedy recovery.

...Apprenticeship coordinator Fred Rose has also gotten to know the inside of the hospital.

...For personal reasons Jeri Madill has resumed her former name of Jeri Hendrickson. She has been with the college since 1979, works in the college store.

.. Jim Wood represented Utah Tech at a recent 7-state conference of the American Alliance for Health, Physical Education, Recreation and Dance. Jim and his partner demonstrated western swing dancing.

...Two Utah Tech students earned first place awards in the recent PBL Conference in St. George.

Joe Lema Jr., chairman of this year's student Spring Art Show, comments that all is in readiness for Friday night's opening. The show runs through May 26.

The sunken lounge of the College Center is the scene of the Show. Hundreds of entries have been submitted, and the juried show represents the very best student work from the college.

The display is free.

The Cooperative Education department of the college recently hosted a luncheon for employers and students working together within the program. The luncheon was culmination of nearly a year's partnership in many instances. "I plan to have the student I'm working with continue right on - on a full-time basis with me," commented one satisfied employer.

Co-op director James Godfrey noted that the program continues to build upon the framework established by school of business dean Michael Homer, and co-op business coordinator Frankie Ford.

Frankie, acting as emcee of the proceedings, announced that she is resigning from the college. Her plans for the future were not divulged.

The Co-op Ed. department is putting together some new printed pieces, including an introductory leaflet designed to gain attention of companies not currently involved in the program, and a handbook for supervisors, which has been completely revised.
