ALL - PERSONNEL RECEPTION PLANNED

Assistant to the President, Brent Goodfellow, confirms the annual Meet-the-President social is planned for Monday, September 19, from 6 p.m. to 8 p.m. for all college employees and their partners.

Both President and Mrs. Carnahan will be on hand during the course of the evening to visit around.

The informal event will be buffet-style in the Copper Room of the College Center. Personnel are free to come and go as they wish during the evening.

We give preliminary notice, also, of the upcoming All-Personnel Meeting scheduled for Thursday, September 29 at 3:30 p.m. in the Tech. Bldg. auditorium.

JOB LINES

° Additional companies have been on campus recently interviewing students. KEP Inc., a commercial electronics firm which services computer hardware, is the most recent recruiter. They interviewed 8 electronics students.

° New job-opening display boards should be in place in the Construction Trades, Metal Trades, and Auto Trades buildings in time for Fall quarter.

° Forty students were hired during the month of August through the Placement Office.

ALUMNI COUNCIL ENDORSES PHONATHON PLAN

Utah Tech alumni coordinator Carol Henderson has approval from the college's Alumni Council to undertake its first annual fundraiser.

The Phonathon will run for 12 days within the period October 17 through November 16. Some 300 volunteers will be required to operate 20 telephones being installed in the College Center.

Carol anticipates about 6,000 former students of the college being contacted. This represents a verified list of those living in-state at present.

While it is hoped enough money can be raised to make the undertaking worth while, the telephone contact alone to each former student will be positive p.r. for the institution.

Preparation for such a massive campaign takes months of behind-the-scenes work. Approval of the concept... arranging for the bank of telephones...the design and printing of forms and pledge cards...calling for volunteers, etc - these are just a few of the responsibilities Carol shoulders to insure success of the Phonathon.

Volunteers for this new endeavor are being actively sought from the ranks of alumni, students, faculty, and staff. Call Carol now if you know you can help (x.4286).

NOTES FROM AROUND THE COLLEGE

* The Utah Tech chapter of U.P.E.A. recently held a luncheon honoring members Dee Fox and Al Richardson as outstanding members of the year. Although Al was unable to be present for the occasion, the presentations to each included a handsome plaque and a \$50 savings bond. Nominations for those being honored came from the chapter membership. Vice president Jim Schnirel and assistant to the president Brent Goodfellow represented the administration at the event.

* Writing of Jim Schnirel reminds us that his avocation of watercolor painting is recognized quite widely. He has several watercolors currently on show in the main gallery at the Kimball Art Center in Park City. The exhibition of Park City Artists runs through September 14, and provides an impressive display of artistic variety as well as quality.

* From the Skills Center on the college's Downtown Campus we learn of several new hire-ons. Spence Adams is a new admissions counselor. Jay Fristrup is the property control technician, assisting Hal Beckstead. Veronica Medina operates the Xerox copy machine. And Elaine Lund has come aboard as an office specialist.

* Other Skills Center folk in the news include Pat Latham, who attended the Shakespeare Festival in Cedar City... Kathy Holt returning as receptionist in admissions following a 3-month leave of absence while she was in Arizona...and librarian Laurie George resigning her position. A couple of exciting marriages are coming up in the next few months, but we'll hold the surprises for a little while!

* School of Business division chair John Anjewierden announces that Kathryn Beebe has agreed to serve as advisor for Phi Beta Lambda chapter on campus this school year, with Mark Moss remaining as co-advisor. John points out that club members must have a 3.5 GPA, must be registered for at least 12 hours per quarter, and plan on remaining in college through the school year.

* The final 3 lectures in the Skills Center series of The Seminars occur the next three Tuesday evenings, beginning at 7 p.m. on the Downtown Campus. On September 6 JoAnn McCullough talks about "Selling the Best Product in the Job Market - You!"; followed the following week by Pat Latham on "Goal Setting Methods for the Motivated Person"; and finally clinical psychologist Robin Malouf discussing "One family, Two Careers - The American Dream?"

* Far and Near corner: Jeviene Christopoulos made it to Hawaii during August...President's secretary Myrna King stayed home, met Governor Matheson at a Utah Issues barbecue...Seventh annual Energy Conference is being held September 9 (\$2 registration; \$5 for the luncheon if desired) at U. of U., Orson Spencer Hall. Called "Utah Resources for the Future," it could prove stimulating for faculty and others.

CENTURY CLUB REACTIVATED

After a lapse of several years the recreational Century Club is being reactivated, according to Craig Forman, recreational coordinator. Originally started on campus by John Weimer, the Century Club is designed to encourage any member of the campus community to undertake specified physical activities.

For example, within the Fall quarter you may sign up to commit to run 100 miles before the quarter ends, or bicycle 300 miles, or swim 25 miles.

There is no entry fee. You merely come in periodically when you have achieved a set portion of the total miles to check off on that figure. Upon completion the college awards you a Century Club tee shirt.

If you are interested see Craig (ext. 4078) in his office in the Women's Resource Center in the lower level of the College Center.

BOYD WARNICK RECEIVES STATE AWARD

Transportation Management instructor Boyd L. Warnick was honored late last month as Delta Nu Alpha's "Man of the Year." The Salt Lake City chapter of DNA - international organization for transportation management professionals - has several ties with Utah Tech. This year's president, Rick McGurk, traffic manager for the LDS Church, is a graduate of the college. First vice president is Tom Scott, ZCMI transportation manager, who teaches in the program in the evening. As does, also, Wes McKnight, who is regional vice president of DNA, and LDS Church traffic analyst.

Boyd sees logistics management as one of the great up-and-coming areas. "People are finally beginning to realize that transportation management is not simply a truck driving course. That aspect is handled very well by our colleagues at the Skills Center. The transportation management program we teach is logistics centered. Incidentally, it is the only such program offered between the mid-west and the west coast. I am of the opinion that within a few years it will be one of the larger programs in the School of Business."
